

Welcome to the SevaRx Premium Formulary

The SevaRx Premium Formulary is designed to provide access to cost-effective, high-quality medications through a tiered system. Your pharmacy benefits depend on where you obtain your medication and whether it is a generic or brand-name drug.

✦ Important Notes:

- Medications are grouped into five tiers based on availability and cost.
- Tier 1 medications are available outside of the preferred pharmacies at the Tier 2 copay.
- Using the recommended pharmacy options can significantly lower your out-of-pocket costs.
- Controlled substances cannot be mailed.
- CVS is excluded from the network.
- Products that are available over the counter are not covered.

Preferred Pharmacy Program

SevaRx has three Preferred Pharmacies to help you save on prescription costs.

- **CostPlus Drug Company:** Tier 1 medications listed in the formulary below are available here at the Tier 1 co-pay of \$5 per 30-day supply. A full list of medications along with strengths are available at www.costplusdrugs.com.
- **Monroe Regional Hospital Outpatient Pharmacy:** Tier 1 medications listed in the formulary below are available here at the Tier 1 co-pay of \$5 per 30-day supply. If you have a medication that is listed as Tier 4 or determined to be Tier 4, you might be eligible for discounted pricing. This is not available to members with addresses in the following states: Arkansas, California, Louisiana, Maine, Texas.
- **ILMEDS:** High-cost brands and select specialty medications are available through our international partner.

Resources

- Visit our website at www.seva-rx.com for more information.
- Utilization Management Definitions
 - QL: Quantity Limit – there is a maximum quantity allowed within a timeframe to ensure safe and proper use.
 - PA: Prior Authorization – approval must be obtained for insurance to help pay for it. The prescriber must provide additional details and information outlining medical necessity. Forms can be found on the website.
 - S: Specialty – drugs that have high-cost, have complex administration, or have special dispensing requirements.
 - NF: Non-formulary – the insurance does not help pay for these.

SevaRx Premium Formulary Prescription Drug Tiers

Tier	Product Type	Where to Get It	Cost to You
Tier 1	Generic Medications	Cost Plus Drugs and Preferred Pharmacy	\$5 copay/ 30-day
Tier 2	Generic medications available at retail pharmacies	Preferred and retail pharmacy. May require Prior Authorization.	\$25 copay or full cost (whichever is less) /30-day
Tier 3	Brand-name drugs with lower costs compared to higher-tier brands		\$30 copay or full cost (whichever is less) / 30-day
Tier 4	Higher-cost brand-name medications		40% coinsurance
Tier 5	Medications not listed in Tiers 1–4	Requires Prior Authorization	Member is responsible for all costs beyond the plan payment
